

## Electrical Part for Forklifts

Forklift Electrical Parts - Forklifts may be specifically labeled to be used in unsafe places. A labeled lift truck indicates the design has met the lowest requirements of ANSI/UL 558 for engine powered trucks or ANSI/UL 583 intended for electric trucks for the type of label attached.

Applications for marked lift trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Areas of Use, Maintenance and Operation, and Type Designations. Consult your local insurance carrier and Fire Marshall for further information regarding the permitted uses of industrial powered lift trucks in your application.

If the forklift has been found to satisfy the outlined standards, the following labels can be attached. A marked truck would have the model designation placed on the lift truck nameplate and would have one of the following labels attached.
