

Meritor Parts

Meritor Parts - The Meritor Company is a premier global supplier established upon one hundred years of tradition of quality and service. Meritor focuses on integrated systems along with different modules and parts to the original machine makers and aftermarket equipment within the transportation and industrial sectors.

Meritor values the requirements of their customers to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their global operations. Meritor starts with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over 11,200 individuals, Meritor promotes innovation and collaboration amongst a team of knowledgeable experts.

By only hiring future focused staff, Meritor strongly feels these top-caliber people will be able to quickly adapt to changing surroundings and exhibit the performance and commitment required so as to attain results in the competitive materials handling market. The company empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor provides their workers different opportunities for personal and professional growth.

Their Advanced Engineering team is at the forefront of components and system engineering that consist of axles, drivelines, suspension and braking systems intended for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is even responsible for supporting the requirements of all their global engineering workers.

Meritor's customer focused and dynamic Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all around the globe in 19 countries and in 5 different continents.

The supplier development network is specifically situated in order to support new business growth. Regional teams are supported by international centralized specialties, initiatives and quality systems in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each part of the business. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is even comprised of transactional Green Belts who apply Six Sigma tools to business techniques and apply lean techniques.
