

Clark Forklift Part

Clark Forklift Parts - Currently, there are no less than 350,000 Clark forklifts performing worldwide, and more than 250,000 operating in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specialized parts intended for 20 distinctive designs of forklifts and automated equipment. Your local Clark Dealer is your total source for availability of all your parts needs supplied by Clark Totalift.

Clark's extraordinary Parts Distribution Facilities are conveniently situated in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a very outstanding intercontinental support network. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the material handling market.

Clark proudly remains an progressive leader of the material handling industry, pioneering protection features such as the worker restraint system. This exceptional dedication to safety is currently a standard feature on every lift truck.

Clark has a unyielding mission to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has preferred the particularly economical and advantageous structure of "Lean Production" for its assembly plants and use of resources. This structure was established to acknowledge the most effective method of manufacturing facility stewardship and ensuring maximum proficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing costs. The contemporary value engineering program combines progressive product development and offers superior customer support and service within the industry.
